

CB

MODEL

15 – 100 HORSEPOWER

COMBINATION GAS/OIL FIRING

THE MODEL CB

Offering easy installation, operation and maintenance.

The Cleaver-Brooks Model CB firetube boiler is an integrated package with components designed to work together seamlessly and provide a single source solution with optimal safety, ease of maintenance, and low emissions. The model CB options include:

- Steam or Hot Water
- 15 to 100 HP
- Natural gas, #2 and #6 oil, combination
- 15 to 250+ psig on steam, 30 to 125 psig on hot water

The CB dryback design includes 5 square feet of heating surface per boiler horsepower with maximum guaranteed efficiencies.

This package includes a pressure vessel, integral burner, and controls, including our LevelMaster low-water control on high-pressure steam units. The Hawk control can be added to further enhance your package.

FOUR PASS INTEGRAL DESIGN

- Dryback boiler design
- Integral front head burner
- Maintains velocities
- Optimal radiant & convective heat transfer
- Saving energy
- Firing capability of gas and oil saves operating costs
